

CITRA-HEAT

DESCRIPTION:

When you think your carpet should be trashed, think again! Citra-Heat powers through the nastiest, grungiest, dirtiest possible filth. It is a concentrated prespray specifically designed for greasy protein stains, body oils, food residue, milk, grass stains, blood stains and filth. Citra-Heat's high pH formula contains a combination of detergents, emulsifiers, brighteners and a very pleasant citrus fragrance.

DIRECTIONS:

For light to medium soil, dilute 1:64 (2 oz. per gallon). For heavy soil, dilute 1:32 (4 oz. per gallon). Use in hot water (120°F-150°F) for applying. Do not use if room temperature is below 55° F. Solution should be applied to carpet with a non-atomizing sprayer as soon as possible after mixing. Spray the carpet and allow 10 minutes dwell time, then extract with Remove. Always rinse the carpet with an extractor after applying Citra-Heat. Do not mix with other chemicals, it may reduce effectiveness.

PACKAGING OPTIONS:

- 4/8#
- 40#
- 400#

SPECIFICATIONS:

Appearance: Orange speckled powder

Odor: Citrus

pH: 11.5
