

EXCLUDE

DESCRIPTION:

Exclude is DSC's premiere, solvent based, gum, paint, ink, and adhesive remover. When adhesives or chewing gum get embedded into carpet fibers or fabric, they often resist all other efforts to clean them. Designed to resist water, modern paints and coatings can be a similar nightmare once they dry. Exclude's special blend of solvents will attack those tricky/sticky residues for a quick and easy removal.

DIRECTIONS:

For gum or adhesives: Use a clean safety pin/needle/awl to poke several holes in the offending residue. These holes will allow the Exclude to better separate the adhesive or gum from the carpet. Spray Exclude directly onto the spot and soak thoroughly, allowing solution to sit for 15 seconds. After 15 seconds, apply hot water to the area to help soften and separate the spot. Use a bone knife or non-metal scraper to help remove larger pieces before extracting the rest.

For paint or other coatings: Spray directly on the stain let soak for 30 seconds to a minute. Use a rag to transfer the material off the carpet and on to the rag. Keep the stain wet by spraying with Exclude so it does not re-deposit onto the carpet.

PACKAGING OPTIONS:

- 12/pts.
- 4/1 gal.

SPECIFICATIONS:

Appearance: Clear liquid

Odor: Aromatic

pH: N/A

Storage: Store at room temperature away from open flame or heat.

Freeze/Thaw: Will recover with warming.
