

# IMPACT

## DESCRIPTION:

Haitian cotton, wool, and other delicate materials are easily damaged by harsh detergents or cleaning methods. Impact was developed at DSC as a way to treat stains and soiling of delicate fibers without damaging the structure or weave of the fabric. The high foaming surfactants allow you to make a cleansing foam to remove spots and stains without needing to soak the fabric or use potentially dye stripping solvents.

## DIRECTIONS:

Dilute Impact 1:10 (12 oz. per gallon) and mix the solution thoroughly in a container to generate foam. Using a damp sponge, collect some foam onto the sponge and apply foam to the target area.

Before use, test an inconspicuous area and dry with a hair dryer to test for discoloration and suitability of cleaning with Impact. Always use gloves when handling.

## PACKAGING OPTIONS:

- 4/1 gal.

## SPECIFICATIONS:

**Appearance:** Light yellow liquid

**Odor:** Characteristic

**pH:** 2.2

**Storage:** Store at room temperature away from open flame or heat

**Freeze/Thaw:** Will recover with warming
