

# PHLUSH

## DESCRIPTION:

Phlush is DSC's concentrated spotter for urine, feces, and bodily fluids that can result in unbearable stains, odors, and health hazards. When used in combination with a sprayer, Phlush can quickly go to work over a large area, attacking the sources of foul odors and stains. Phlush especially makes a great prespray in rooms where pets tend to sleep or play. It also works well in hospitals, nursing homes, or other environments where bodily fluids may have stained the carpets.

## DIRECTIONS:

For prespray use: Dilute 1:20 (6 oz. per gallon). Once applied, let dwell for 5-10 minutes before extracting.

For spotting: Dilute 1:8 (16 oz. per gallon) and apply to stained area. Let dwell for 5 minutes before rinsing. If a ring forms, rinse and repeat the process again.

## PACKAGING OPTIONS:

- 4/1 gal.
- 55 gal.

## SPECIFICATIONS:

**Appearance:** Slightly yellow liquid

**Odor:** Citrus

**pH:** 3

**Storage:** Store at room temperature away from direct sunlight or heat.

**Freeze/Thaw:** Freezes at very low temperatures, recovers with no loss of efficiency.
