

REMOVE

DESCRIPTION:

Remove is an all-purpose, pH buffered rinse agent for professional applications. Whether you clean with alkali or acid based products, Remove will leave the job pH balanced with carpets feeling clean and residue free. Remove is safe for all carpets and upholstery and can be used in conjunction with any of DSC's cleaning solutions.

DIRECTIONS:

For Portable Extractor Machines: Dilute 1:100 (1 oz. per gallon) to rinse. Apply as needed and extract.

For Truckmount Extractor Units: Dilute 1:100 (1 oz. per gallon or 1 quart per 5 gallons) and use as needed before extracting with water.
