

RESTRAIN

DESCRIPTION:

The easiest way to clean foam out of your tanks, is to not have any foam to begin with. Add some Restrain to your extractor tanks and you'll stop foam buildup before it can start. Effective against foam from any detergent type - Restrain's versatility and ease of use make it a must-have for professionals who value efficiency when they're on the job. As an added benefit, Restrain is made from biodegradable components to ensure compliance with all environmental laws and restrictions.

DIRECTIONS:

Add 1 to 2 oz. of Restrain per 5 gallons of capacity in extractor tanks. Mix with water first if tank is dry to help prevent product from sticking to the sides of the tank. Use more if foam starts to appear. Over use of product will not cause any damage to equipment.

PROTECT FROM FREEZING: De-foaming agent with not be effective once Restrain is frozen.

PACKAGING OPTIONS:

- 4/1 gal.
- 55 gal.
