

SCAT

DESCRIPTION:

Scat is a highly concentrated solution of enzymes designed to break apart and consume odor-causing soils on carpet and hard surfaces found in bathrooms, kitchens, and areas with pets. Scat removes the unsightly stain and breaks down soils like urine, fecal matter, rotting food, and others that serve as breeding grounds for bacteria that emit foul smells. Scat contains 100% biodegradable active ingredients in the form of enzymes and is specifically formulated to be safe to use around children and pets.

DIRECTIONS:

Use Scat as-is on stains or near direct sources of odors such as litter boxes or waste receptacles.

For general cleaning of carpets and hard surfaces: Dilute 1:16 (8 oz. per gallon).

WARNING: Scat's enzymes lose effectiveness below 60° F or above 110° F. Dilute with room temperature water.

PACKAGING OPTIONS:

- 12/pts.
- 4/1 gal.

SPECIFICATIONS:

Appearance: White opaque liquid

Odor: None

pH: 9.5

Storage: Store at room temperature away from direct sunlight.

Freeze/Thaw: Will recover with warming.
