

SURELY

DESCRIPTION:

Tannins and iron content in water can cause carpets and rugs to develop a brown stain or discoloration over time. Traditional alkaline detergents struggle to remove this stubborn browning when only acidic products can do the job. Surely has a combination of mild, neutral detergents and an acidic punch to remove these browning agents that resist other products. Use Surely as a spotter and fringe treatment, or as a whole room treatment and watch as the color returns to carpets and rugs.

DIRECTIONS:

Dilute 1:4 with water for most brown spots and fringes on rugs or upholstery. Spray or sponge onto affected area, blot/scrub away the stain, and rinse with fresh water.

To prevent browning or to cover a large area, dilute 4 oz. per gallon of cold water and use as a rinse on the carpet. Do not perform an additional rinse or use other rinsing agents after rinsing with Surely. If browning comes back, re-rinse with Surely and use fans to force-dry the area.

PACKAGING OPTIONS:

- 12/pts.
- 4/1 gal.

SPECIFICATIONS:

Appearance: Clear, colorless liquid

Odor: None

pH: N/A

Storage: Store at room temperature away from direct sunlight and heat.

Freeze/Thaw: Will recover
