

TANNER

Leather can be challenging for even the professional cleaner to restore, maintain, and preserve.....but not when you use Tanner! Now you can do it all with just one product. Its unique formula blends detergents, conditioners, and a gloss enhancing protectant for easy leather care. Safe for use on both furniture and apparel leather, give it a try and see how easy it is to clean, restore, and protect with just one application

Directions:

DO NOT DILUTE. SHAKE WELL BEFORE USING.

Regular scheduled maintenance (3-6 months/weekly damp cloth wiping): Pre-inspect for imperfection. Test for excessive dye loss. Pre-spot stubborn stains using care, 0000 grade steel wool may be used. A Tampico brush can loosen heavy soils. Use caution. Clean cushions separately. Over a drop cloth, apply Tanner liberally to upright surfaces with impervious gloves or equivalent in circular motions. Allow gravitational penetration for 3 minutes. Use a clean, dry, absorbent towel in repeating circular motion with pressure to transfer soils into the towel. Rotate the towel for clean surface. Buff with a new, clean towel. Rotate furniture to completely clean all opposing surfaces. Be sure to overlap each section. One quart covers average sofa.

HAZARD WARNING: Eye and skin irritant.

PRECAUTIONS: Keep away from heat, sparks, or open flame. Wear impervious gloves, eye protection, and maintain good ventilation.

FIRST AID: Inhalation – Remove to fresh air. Ingestion – DO NOT induce vomiting. Contact – Wash with soap and water.

Eyes – Flush with water. Get prompt medical help in all cases.

KEEP OUT OF REACH OF CHILDREN.

DO NOT REUSE THIS CONTAINER.

READ SAFETY DATA SHEET BEFORE USE.

Appearance.....White, opaque liquid
Odor.....Leather
pH.....Neutral
Specific Gravity.....1.03
Flash Point.....None
Dilution.....Use as is
Usage.....See directions
Freeze/thaw.....Will recover with warming
Storage.....Store in closed containers
Packaging.....12/qts.
